

Offering Exclusive Programming for College Students at All Levels of Care

The Renfrew Center for Eating Disorders

For college-aged students who choose to participate, The Renfrew Center has integrated specialized programming into its **Residential, Day Treatment and Intensive Outpatient** levels of care to address the many challenges students face. Group members have opportunities to identify, share and affirm connections to themselves and others, building authentic and sustainable relationships.

DAY TREATMENT

(Meets 5 days a week)

A unique therapy option for those who require more intensive structure and support while working through recovery.

INTENSIVE OUTPATIENT (IOP)

(Meets 3 days a week)

An innovative and dynamic treatment option developed for those who need additional support to outpatient therapy.

RESIDENTIAL TREATMENT

(Available in Philadelphia, PA & Coconut Creek, FL)

Provides 24-hour support in a homelike setting where treatment includes specialized tracks for trauma and substance use as well as experiential therapy.

Dedicated space for college students at
The Renfrew Center of Coconut Creek, FL

Considering a Higher Level of Care for a Student?

Renfrew is here to help navigate next steps, provide appropriate treatment recommendations and aid in overcoming student barriers.
